Petrus Planter

Polygonal design that takes the shape of an irregular polyhedron, creating an element that generates an interesting interplay of light and shadow across its faces. Thanks to its dimensions, robustness, and weight, it is an ideal product for delineating pedestrian areas, ensuring maximum safety and promoting the renaturalization of the urban environment.

PETRUS Planter Alicante

ARO Planter Barcelona

Aro Planter

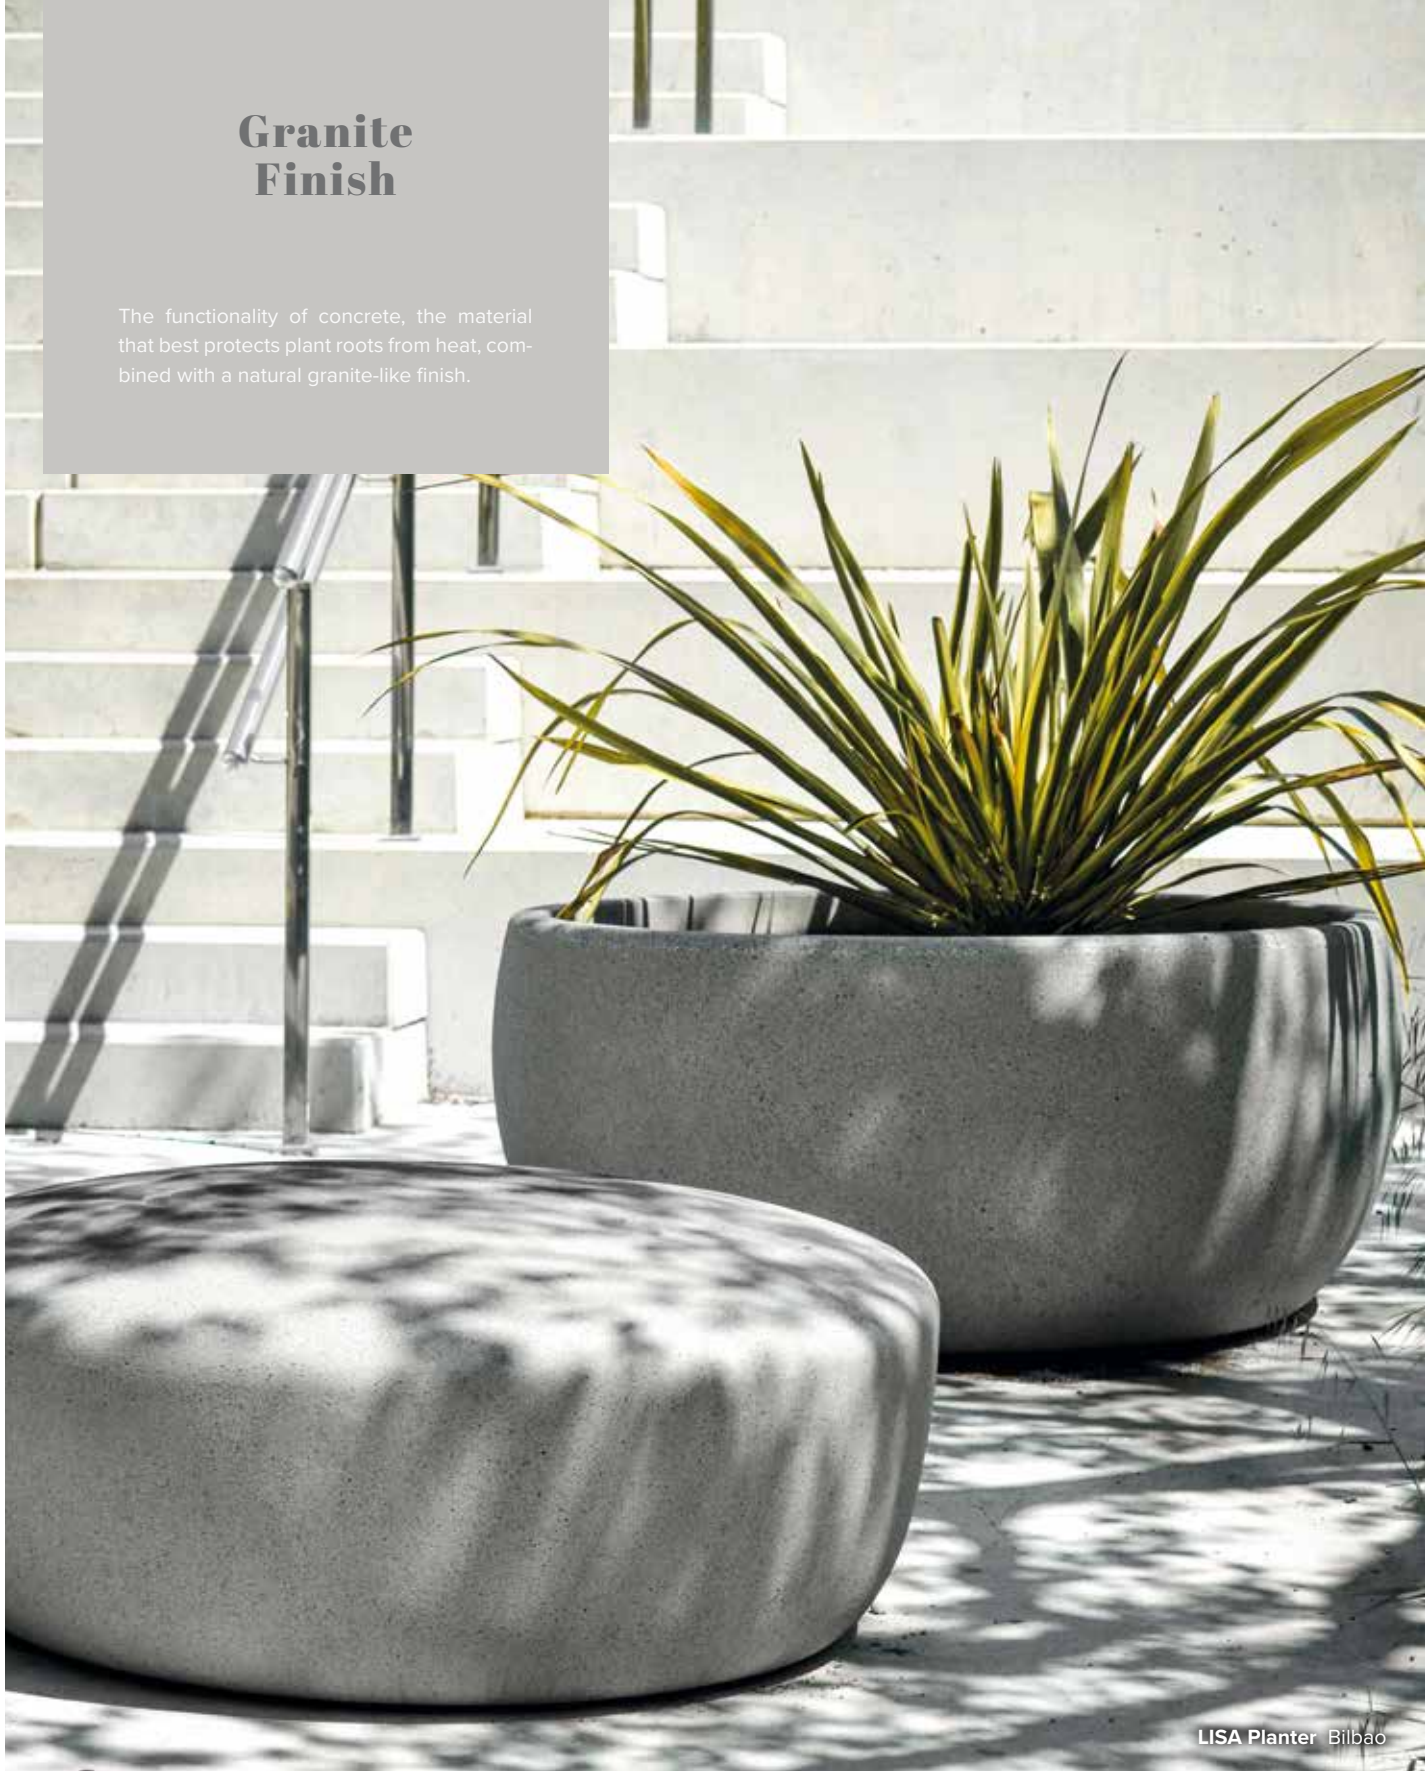

Planter with perfect geometric purity, enhanced by the decorative touch of stainless steel.

ARO Planter Barcelona

Granite Finish

The functionality of concrete, the material that best protects plant roots from heat, combined with a natural granite-like finish.

LISA Planter Bilbao

PLANTERS IN CONCRETE

Lisa UM1375G

Ø1300 x 600 mm

Kube UM1372

580 x 580 mm

Kube Alta UM1373

500 x 500 x 880 mm

Kube Nin UM1673

Ø500 x 880 mm

Pine Wood or ReBnew

Made from ReBnew, the 100% polymer produced from yellow bin packaging that requires no maintenance, or from class 4 autoclave-treated pinewood.

CUSTOM Planter Canary Islands

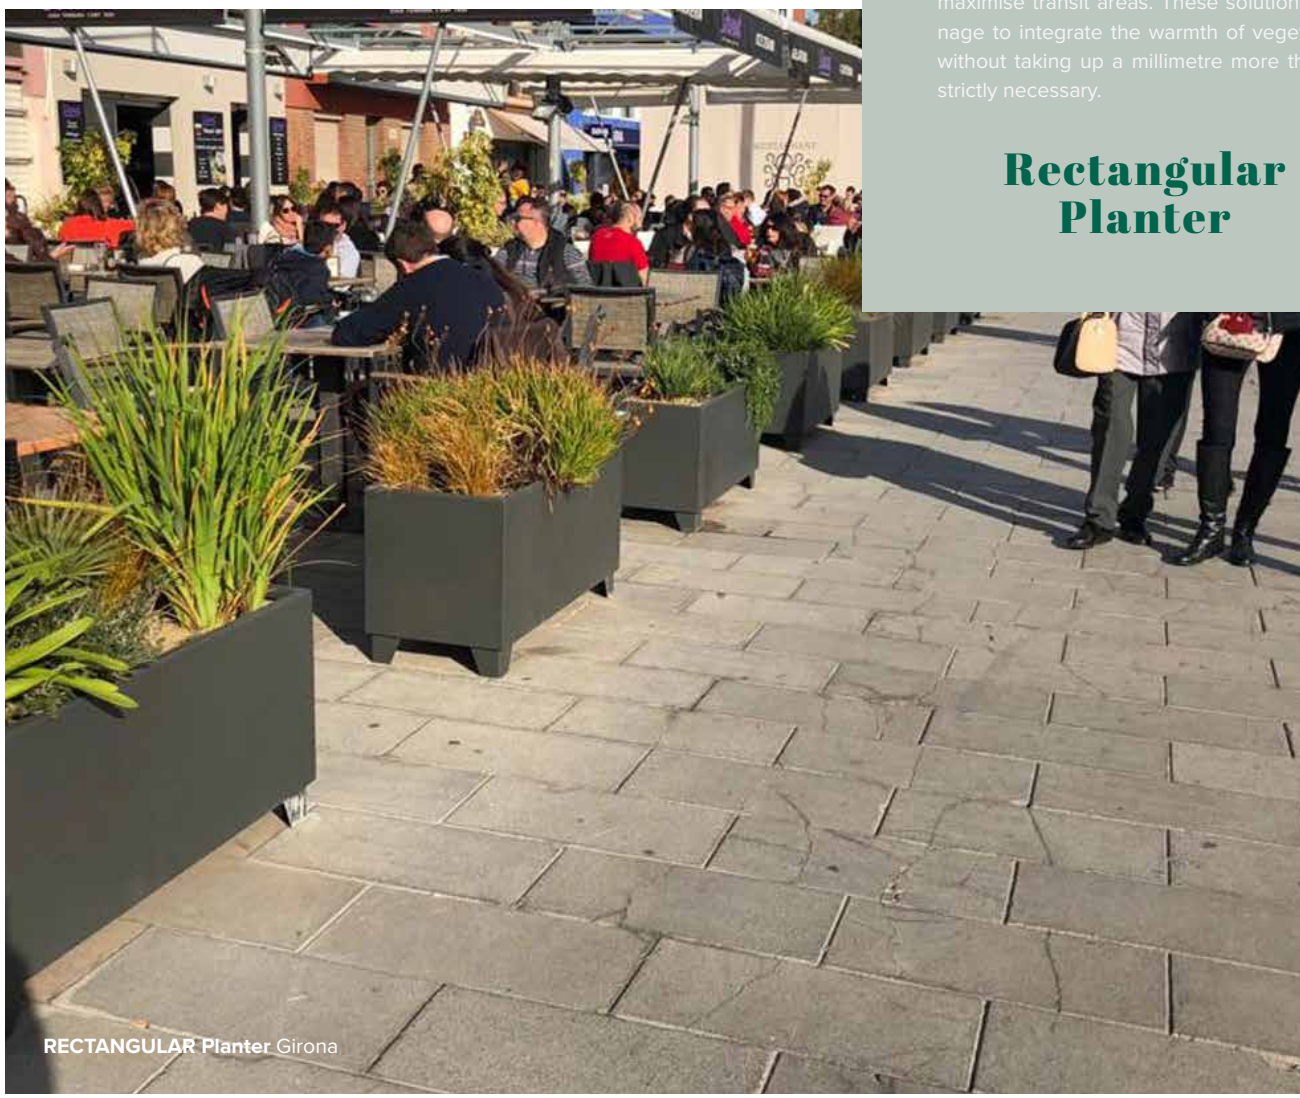

OVAL Planter Barcelona

Oval Planter

Designed with proportions that make them the ideal element for delimiting spaces in places of reduced dimensions, such as narrow streets or areas where the aim is to maximise transit areas. These solutions manage to integrate the warmth of vegetation without taking up a millimetre more than is strictly necessary.

Rectangular Planter

RECTANGULAR Planter Girona

DARA Planter Torino

Dara Planter

The simplicity of pure geometry, combined with the subtlety of planes that curve gently to achieve the perfect reflection.
