

Minsk Bench and Chair

Citizen Bench

Riga Bench

LEMAN Bench

Minsk Bench

FSC-certified wood the most sustainable material

As a tree grows into timber, it draws CO_2 from the atmosphere, provides habitat for hundreds of species, stabilizes soil, and retains moisture that helps new plants take root. Once it reaches maturity, it can be harvested and a new tree planted in its place, continuing the cycle.

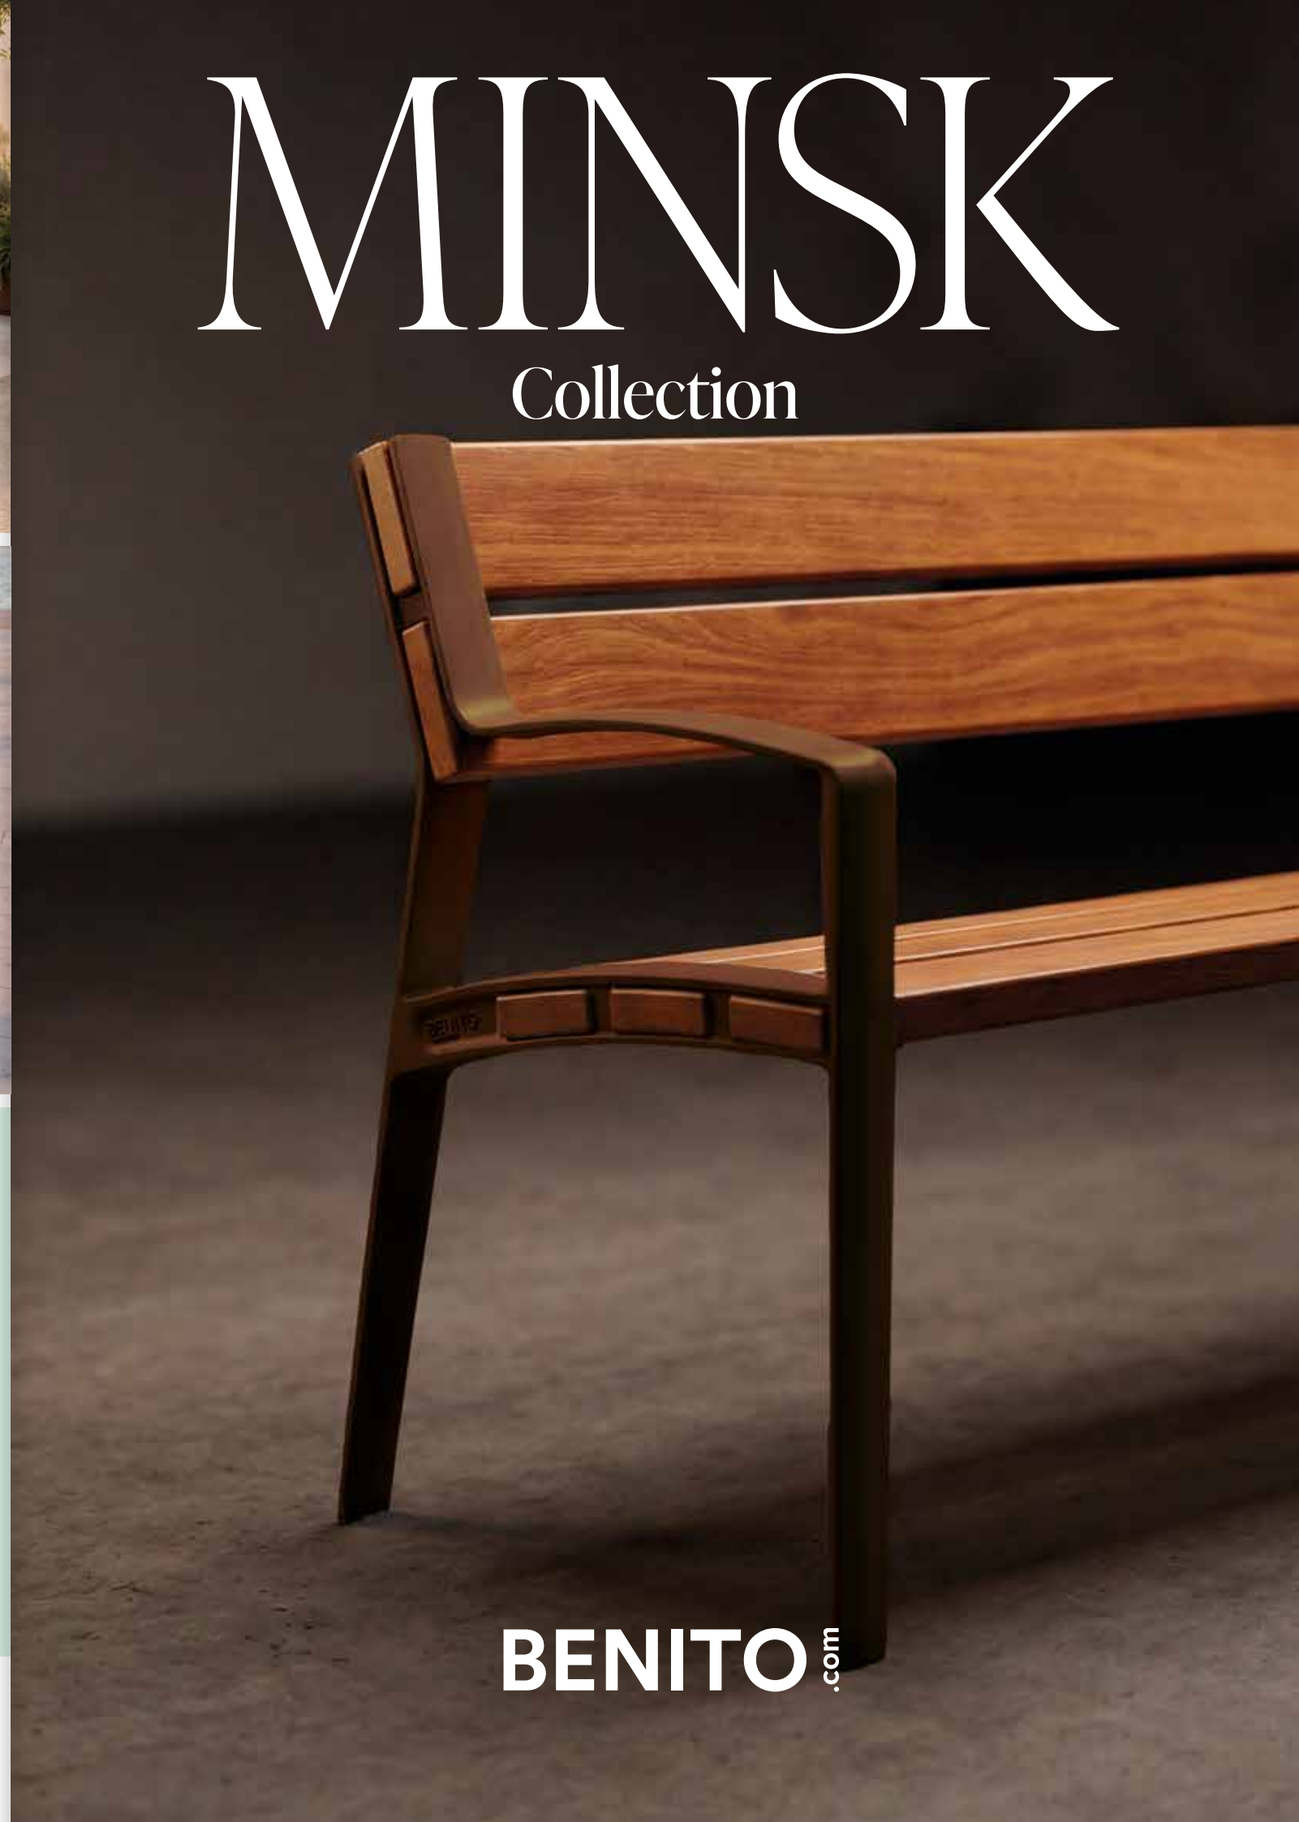

This makes wood the only material with a negative carbon footprint.

MINSK

Collection

BENITO.com

MINSK
Collection

The MINSK collection introduces
new ways of experiencing public spaces.

The bench and chair combine visual lightness
with a robust, durable structure.

Their clean geometry allows seamless integration
with other elements of the urban landscape.

Enveloping cast iron structure that protects the wood,
with a discreet, low-impact design that blends seamlessly
into its surroundings.

MINSK Chair
UM327S

Individual version that expands
the range of possible applications.

POLKA Table
VRMD11

An auxiliary surface that brings the
comfort of home into public spaces.

MINSK Bench
UM327

The core element of the system,
combining lightness with outstanding strength.

MINSK Litter Bin
PA612

An integrated complement
that reinforces the civic use
of public spaces.

POLKA
Table

MINSK benches, **MINSK** litter bins
and **POLKA** tables

MINSK benches and chairs, **MINSK** litter bins and **POLKA** tables

MINSK chairs, **MINSK** litter bins and **POLKA** tables

On the street, just like at home.

Create public spaces with new ways to experience urban life.
